

CON B SKITTLES

Match Report

Friday 16th November

This match we thought would be a good one due to the fact that most of us has scored a good score on the "Golden Lion" alley in Worle High Street.

Well, at the end of the first set it was close; we slithered to a 6 pin lead gaining us a valuable two points at an early stage in the game. The second set things began to look decidedly dodgy. The pins would just not relinquish their stance on the diamond to give us a crushing defeat of fifteen pins, resulting in an overall deficit of nine pins. On to the third, where the pins would still not budge. Alas we lost two more points giving us an overall loss of twenty pins. Could we salvage anything from what was beginning to turn out to be a bit of a nightmare? Into the fourth and final set. The "power set" with Captain Woody having the roll of Anchor. The Nutters unfortunately did not have a full team so had to play two low scores of 33 giving us something to aim for. We felt that at this stage in the game perhaps maybe we had a chance after all. Vince came through with a blinding score of 47 without a spare so well done to him for the team's highest scorer for this match. It was a tense time right until the end of the match where we came through to win the set by 25 pins to give us a valuable lead of only five pins on the game to secure us with a nice ten points.
