## Match Report

Friday 28th September

### Front Pin Round 1

All I can say to this is oops!! After our excellent win on Wednesday we went down hill fast just like an avalanche!! We just could not hold onto any sort of lead. In fact we were well and truly stuffed!! Part way through the game we were 52 pins down. To rub salt into our very deep wounds was the fact that our opponents could only muster 10 players instead of the normal 12, which meant that they had to play two low scores - we still lost by 35 pins!!
